Indian Institute of Information Technology Allahabad   *2027*
Bachelors of Technology, Information Technology with Business Informatics   CGPA: 7.55

Delhi Private School Dubai   *2023*
Class 12 (AISSCE)   *Percentage: 90*

PERSONAL PROJECTS

AI-Powered Health Chatbot

- Developed the front-end of an **AI-powered health chatbot** website using HTML, CSS, JavaScript to create a user-friendly interface.
- Integrated **Firebase** for user authentication and real-time data handling, enabling smooth user experiences.
- Collaborated with team members who implemented the AI-driven backend using **Python**, **LangChain**, and the **LLaMA** model for natural language processing.
- Supported retrieval-augmented generation **(RAG)** and accurate document retrieval by coordinating integration with **FAISS** and **HuggingFace embeddings.**

Vendzo – Local Vendor Marketplace

- Developing a MERN stack web application to connect local vendors in Allahabad with customers, enabling product browsing and vendor comparisons.
- Implemented **backend authentication** with **Node.js, Express, and MongoDB**, establishing secure **login/signup** functionality.
- Designed and built most of the **React frontend**, ensuring a responsive UI with structured **card layouts** for vendor and product display.
- Currently integrating **essential features** like sorting, filtering, and vendor-product interactions to enhance user experience.
